

We are pleased to announce that Altrad Services Singapore are the proud recipients of the *Workplace Safety and Health Performance Award*. The award was achieved through experiencing Zero incidents, implementing exemplary safety & health management systems, and going to extraordinary lengths to safeguard our employees and subcontractors across all our worksites. The award was presented by the **WSH** Council, who are the statutory body under the Ministry of Manpower that is supported by Tripartite Alliance Limited. The **WSH** Council works closely with the industry, unions, professionals, trade associations and other government agencies to raise WSH standards in Singapore.

This recognition award is testament to the hard work and dedication of every person working within Altrad and their unwavering commitment to reaching our *Generative Safety Culture* Goals. Additionally, this award would not have been possible without the help of our client partners who support us to achieve our HSE Goals and vision of *“Beyond Zero”* every day.

Thank You, Best Regards and Keep Safe,

Jason King – Managing Director, Altrad Services Singapore Pte Ltd
