

Qualiopi
processus certifié

 **RÉPUBLIQUE FRANÇAISE**

Quality certification granted in the
"Training actions" category

A complete training offer
in Occupational Health and Safety

All our training courses can be tailor-made.

In French or English / Inter or intra-company / In France or abroad

Reactivity

We respond to your requests within 24 hours and plan your training as soon as possible.

Quality

All our training courses are subject to specific studies by our referent trainers, as well as certifications if necessary.

Tailor-made

We meet your specific needs by adapting our training in our practices and teaching materials.

On-demand sessions

In order to guarantee you a minimum of waiting, we open sessions from one trainee for most of our trainings.

Instructors from the field

We rely on qualified instructors with solid experience in the field who continuously improve and renew their competencies.

Training area

Our two training sites have a total evolution area of more than 4000 m².
